## Vulnerability Management

### The Challenge

One of the largest retail financial services companies needed to **improve its vulnerability management and change control capabilities** to comply with a federal audit, financial regulations. SIFI de-designation and divestiture-related requirements.

### Our Solution

Aditi was brought in to develop, plan and implement a new vulnerability management program, shifting the company's management of vulnerabilities from a **reactive** stance to a **proactive** one.

Aditi deployed a team of four enterprise vulnerability management EVM analysts, led by a vulnerability analysis project manager.

The team used VMware, Adobe, Java HP Opsware Automation and Qualys vulnerability Scanning

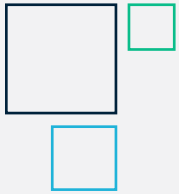

Also, with scripting and custom code in Batch, Python, Visual Basic and Powershell.

## The Result

Aditi has established a long-term partnership with the retail financial services company spanning five years, with two current resources deployed to their site to review internal vulnerability data -- while developing **custom solutions** and **scripts to resolve vulnerabilities** within the environment.

Aditi teams have streamlined the company's processes from **multimillions** of high severity vulnerabilities to only a **few thousand**. These teams continue to expand and take on responsibilities to assist the company where necessary, ensure compliance and integrate IT changes.

Whether your team needs to integrate, migrate or modernize your IT applications or frameworks, **Aditi is here to help**. Our dedicated support teams and skilled consultants have a wide-array of experience helping companies through acquisitions, divestitures, legal/federal audits and more.
